DETAILED ACTION

1. This communication is in response to amendment filed 10/19/2009.

Response to Amendment

2. Claims

Amended claim(s): 45 and 58 (amended 10/10/2009)

New Claim(s): 45-58 (submitted 08/06/2009)

Canceled claim(s): 1-44

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

The following is a statement of reasons for the indication of allowable subject matter; the prior art fails to teach or render obvious the limitation of independent claims. The Applicant has claimed a commerce system for payment over the internet.

Independent claim 45 discloses a commerce system for payment over the internet with "an online account being credited with an amount of value, without a credit card, debit card, or bank account, by receiving value information from a pre-paid system smart card issued by the system payment solutions provider"

Independent claim 52 discloses a method for a shopper to merchant e-commerce payment wherein "an online account being credited with an amount of value, without a credit card, debit card, or bank account, by receiving value information from a pre-paid system smart card issued by the system payment solutions provider".

The following prior art references have been deemed most relevant to the allowed claims(s).

The closest prior art Guerreri (US Pub No. 2002/0055911 A1) teaches a system and method for controlling online purchases using an online account and discloses a system capable of purchasing goods or services online; a merchant capable of selling goods or services on line and a third party payment system for completing an online transaction without the shopper using a credit card, debit card or bank account for the online transaction.

The closes prior art Tribune Business News (NPL; British Post Office Investigates Methods of Providing Cheaper Utility Bills) which teaches a Post Office card which enables customer to directly set up debits from their accounts. Claims 45-53 are allowed because Guerreri and Tribune Business News references as discussed above as the closest prior art of record fails to teach or render obvious a commerce method or system for payment over the internet with **“an online account being credited with an amount of value, without a credit card, debit card, or bank account, by receiving value information from a pre-paid system smart card issued by the system payment solutions provider”**

While Guerreri clearly teaches an online payment system and method wherein the user is not required to access a credit card, debit card or bank account, Guerreri does not teach **“an online account being credited with an amount of value, without a credit card, debit card, or bank account, by receiving value information from a pre-paid system smart card issued by the system payment solutions provider”**.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3694

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
